

# *torqit*

2025 CATALOGUE

## EXHAUST RANGE

Torqit exhausts are among the thickest and most durable aftermarket systems available in Australia. They are designed to generate a deep note, and increase vehicle performance by improving exhaust gas flow, increasing power and torque, and enhancing fuel efficiency.

### KEY FEATURES

- Maximise torque and performance with increased power lower in the rev range
- Improve fuel economy and energy output- help your engine work smarter, not harder
- Withstand rugged terrain with thick, premium 304 grade stainless steel
- Lower exhaust gas temperatures (EGT's) and extend engine life by reducing back pressure and increasing air flow
- Ensure maximum flow and perfect fitment with fully mandrel bent pipe
- Enhance and deepen vehicle note without cabin drone
- Built with heavy duty components to withstand extreme off roading
- Guarantee maximum strength and guard against cracks and leaks with internal and external TIG welds on all flanges
- 10-year-warranty across Australia

Jimmys Beach, NSW

DPF-BACK LC200 EXHAUST

304 GRADE  
STAINLESS STEEL

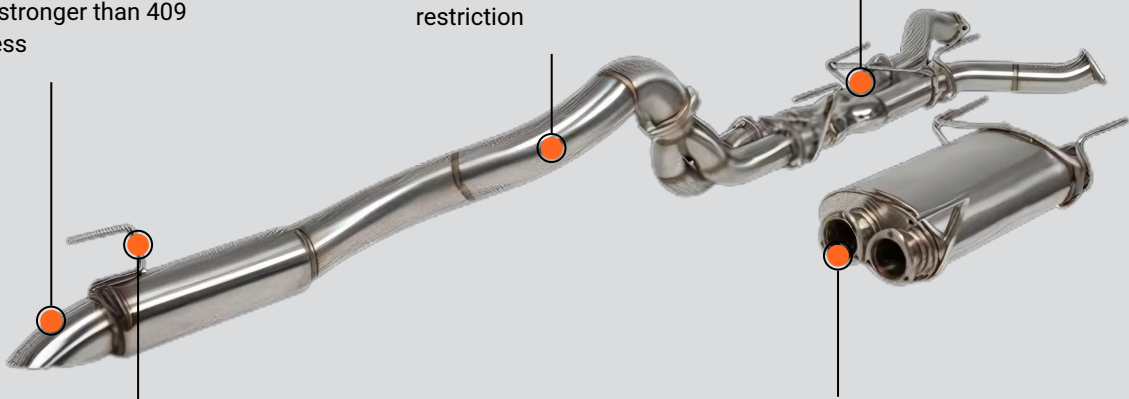

The highest quality stainless used for exhaust systems. This premium steel will not rust, and is much stronger than 409 stainless

MANDREL BENT

Pipe is bent while being supported on the inside, this ensures constant diameter bends and reduces restriction

INTERCHANGEABLE  
COMPONENTS

Choose from a louder or quieter option by swapping resonators or mufflers

HEAVY DUTY WRAP  
AROUND BRACKETS

Extra brackets and reinforcement reduces the risk of cracking by strengthening stress points on the exhaust

INTERNAL & EXTERNAL WELDS

All Torqit exhausts feature internal and external welds on flanges to increase the strength of the system. This makes it incredibly difficult to crack, even in extreme conditions.

# PERFORMANCE UPGRADES FOR THE SUZUKI JIMNY

## 2.5" Stainless Steel Performance Exhaust

- Crafted from 304-grade stainless steel for unmatched durability, even in extreme off-road conditions.
- Produces a deep, sporty note with a resonator and rear muffler.
- Maximizes underbody clearance, fitting seamlessly with rock sliders, tow bars, underbody protection, and the 80L Long Ranger Fuel Tank.
- DIY bolt-together system for easy installation in just 2.5 hours.

Part No	Description	Price
HS8178SS	2.5" Performance Exhaust	\$1,990.00
HS8178SS-XL	2.5" Performance Exhaust - Jimny XL	\$2,090.00

## Stainless Steel Snorkel

- 3.5" snorkel improves airflow and efficiency while protecting your engine from dust, mud, and water.
- Built from tough 304-grade stainless steel for exceptional durability.
- Includes a precision-fitting template for easy installation and compatibility with aftermarket roof racks and light bars.

Part No	Description	Price
SN02SS	3.5" Stainless Snorkel	\$1,490.00
SN02MB	- Satin Black Powder Coating	\$1,590.00

## Stainless Steel Airbox

- Larger than the stock Jimny airbox, with a filter surface area 2.3x greater for superior filtration and less maintenance.
- Made from rigid, heat- and water-resistant 304-grade stainless steel.
- Easy DIY installation with four strong clips for hassle-free filter changes.
- Available in brushed stainless or black powder-coated finishes.

Part No	Description	Price
AB02SS	Stainless Steel Airbox	\$1,490.00
AB02MB	- Satin Black Powder Coating	\$1,590.00

# **ELECTRONIC UPGRADES FOR YOUR 4WD**

## **PEDAL TORQ**

Torqit Pedal Torq removes throttle lag and provides an enhanced driving experience.

- Five modes with 30 settings to finely tune your accelerator
- Easy to use dash mount control
- Intelligent mode functionality adapts to the motorists driving style & adjusts the accelerator response to give a specific tailored experience
- Anti theft mode - immobilises the vehicle until it is deactivated

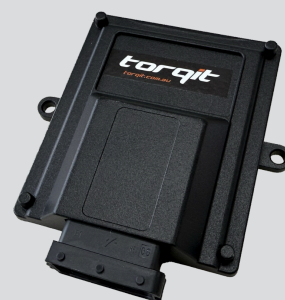

## **PEDAL TORQ +**

An enhanced version of the Pedal Torq, this fully wireless throttle controller features eight driving modes and over 60 adjustable settings – delivering precision performance for any terrain or driving condition.

- Three optimal settings that are ideal for any terrain
- Bluetooth connectivity & wireless control
- The unit is controlled via the Torqit Connect App, so the latest technology is always loaded onto the Pedal Torq Plus

## **POWER MODULE**

The Torqit Power Module is a performance chip that plugs into the fuel rail and boost sensors of your vehicle. It safely unleashes power, torque, and fuel efficiency that is lost through factory programming in the vehicle's on-board computer. The unit alleviates stress from the vehicle, allowing it to perform to its maximum ability and provides a smoother driving experience.

## **MODULE MAP**

The ModuleMap is Torqit's remote tuning solution that eliminates the need for a dyno visit. This user-friendly remapping tool safely modifies your vehicle's factory settings to boost performance, responsiveness, and efficiency. Each tune is live calibrated and tailored to suit your specific setup - including aftermarket accessories like upgraded exhausts, larger tyres, or a snorkel - and can be reverted to factory settings at any time. Backed by over a decade of experience in performance tuning and thousands of successful remaps, Torqit's industry-leading engine mapping software supports a wide range of diesel and petrol engines. Delivered via the cloud, the ModuleMap uploads your tune through the OBD port in under 10 minutes and includes multiple tuning options, such as Sport, Towing, and Standard modes.
